EMS Bulk Email Sender Full Product Key Download [Win/Mac]

EMS Bulk Email Sender is a software program designed specifically in order to help you create and send a myriad of mail messages in the same time. EMS Bulk Email Sender is a software program designed specifically in order to help you create and send a myriad of mail messages in the same time. The interface is fairly plain, thus allowing even inexperienced people to work with it, without encountering issues. In addition to that, the Help contents are quite extensive and neatly organized, and there is even a new job wizard, which novice users can take advantage of. New e-mails can be written in new windows, and there are a lot of text-editing options you can use when creating newsletters. For example, you can insert bullets, indents, pictures (ICO. BMP, JPG, GIF, PNG) and links, customize the font and background, attach files and preview the e-mail. Using this software utility, you can import recipients lists from formats such as TXT, CSV, MDB and XLS, or they can be manually added. Reports pertaining to e-mails can be generated, along with details such as number of successful, failed, skipped and unsent messages, start and end time, size and last modified date and time, as well as a pie chart graphical representation. You can create an unlimited number of accounts, while providing the program with information such as name, sending method, e-mail address, number of retries when failing, and maximum connections. From the settings panel, you can change the language, set up a folder for saved data, show tip of the day, auto run with Windows startup and the list goes on. In conclusion, EMS Bulk Email Sender is a useful piece of software when it comes to creating and sending newsletters or other type of bulk-mailing jobs. Response time is very good, while CPU and memory usage is low, regardless of the actions you are taking. EMS Bulk Email Sender Features: ● Transactional email with 1-click sending ● Fully customizable templates ● Attach files and images ● Preview e-mails before sending ● Imported address book from different data sources ● Full support for SSL ● Wide array of text formatting ● Easy, paper-like templates for your needs ● Job wizard to create e-mails with ease ● The ability to create templates with zero coding knowledge ● Unlimited number of accounts ● Automatic backup ● Scheduling options ●
